

PAMIDI NAGA PRAVEEN

Aspiring Software Engineer Intern | Full-Stack Developer

Email: pamidinagapraveen585@gmail.com | Phone: 9676984987 | Portfolio: <https://portfolio> | Github: <https://github.com/tech>

TECHNICAL SKILLS

Programming Languages:

Python, Java, C

Computer Science Fundamentals:

Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving,

Web Technologies:

HTML, CSS, JavaScript

Backend & Frameworks:

Python Flask, Node.js (basic)

Databases:

MongoDB, MySQL

Tools & Platforms:

Git, GitHub, VS Code

EDUCATION

B. TECH - COMPUTER SCIENCE & ENGINEERING

2023 – 2027

CGPA - 8.5/10

INTERMEDIATE EDUCATION

2022 – 2023

Percentage - 63

DIPLOMA - ANIMAL HUSBANDRY

2019 – 2022

Percentage- 79.5

SECONDARY SCHOOL CERTIFICATE (SSC)

2018 – 2019

CGPA - 9.7/10

CERTIFICATIONS

Oracle Cloud Infrastructure - AI

Foundations Associate

[Certificate link](#)

Salesforce Certified Advanced

Administrator

[Certificate link](#)

Python Certification - CodeTantra

[Certificate link](#)

National Short-Term Training Program -

AICTE & Brainovision Solutions (Dec 2024)

[Certificate link](#)

Technical Paper Presentation - ICRAIICE-2025 ("Online Examination System")

[Certificate link](#)

SOFT SKILLS

- Strong Problem-Solving & Analytical Thinking
- Ability to Work with Ambiguous Requirements
- Effective Communication of Technical Concepts
- Team Collaboration & Ownership Mindset
- Continuous Learning & Adaptability

PROFESSIONAL SUMMARY

Aspiring Software Engineer and Full-Stack Developer with experience in Python, Java, C, Flask, and web technologies. Strong foundation in data structures, algorithms, and object-oriented programming, with hands-on experience building scalable applications and backend services. Skilled in databases (MongoDB, MySQL), problem-solving, and collaborating effectively in team environments. Eager to contribute to impactful projects and continuously learn across diverse technical domains. Passionate about leveraging technology to solve real-world problems and improve user experiences. Committed to adopting best practices in software development, including clean code, testing, and scalable system design.

PROFESSIONAL EXPERIENCE

Engineering Intern - Full Stack Technology | Make Skilled

May 2025 – July 2025 [-Certificate link](#)

- Completed a structured internship focused on full stack development fundamentals within a corporate engineering environment.
- Gained hands-on exposure to building web application components and understanding end-to-end application flow.

PROJECTS

Online Examination System

Role: Software Developer (Academic Project)

- Architected and implemented a multi-user examination platform supporting distinct administrative and student workflows.
- Designed backend services using Python and Flask to handle authentication, authorization, and secure data processing.
- Developed API endpoints to manage assessments, submissions, and evaluation logic with efficient data handling.
- Structured database models in MongoDB to support scalability, fault tolerance, and reliable query performance.
- Delivered a responsive web interface enabling smooth interaction and real-time feedback for users.
- Approached system design challenges by breaking down broad problem statements into manageable components.

Stock Trend Prediction System

Role: Student Developer (Practice Project)

- Built a data-driven application to analyze historical stock market data and identify price movement trends.
- Implemented data preprocessing and feature handling techniques to prepare datasets for analysis.
- Applied statistical and basic machine learning concepts to generate trend predictions based on past patterns.
- Visualized insights to help interpret market behavior and prediction outcomes.
- Strengthened understanding of data handling, algorithmic thinking, and result interpretation through hands-on implementation.

LEADERSHIP & ACTIVITIES

Role: Department Club Coordinator

Computer Science & Engineering Department

- Coordinating academic and technical activities within the department club, including planning sessions, student engagement events, and peer-learning initiatives.
- Working with faculty members and student teams to organize activities, manage schedules, and ensure smooth execution.
- Developing communication, coordination, and responsibility-handling skills through active leadership involvement.
